

Equality and Diversity Statement

All staff members working within our school family should be able to work together. The school will promote the value of equal opportunities. Staff members will treat others with equal fairness, respect and dignity, regardless of ethnicity, colour, disability, gender, sexuality, care of dependents, religious or political beliefs. They should have consideration to children's specific needs with regard to their age and development. It is understood that due regard will be reciprocated. All staff members are bound by their own professional codes of conduct and will be held accountable to them for their professional conduct.
